

Wisteria Collop 009

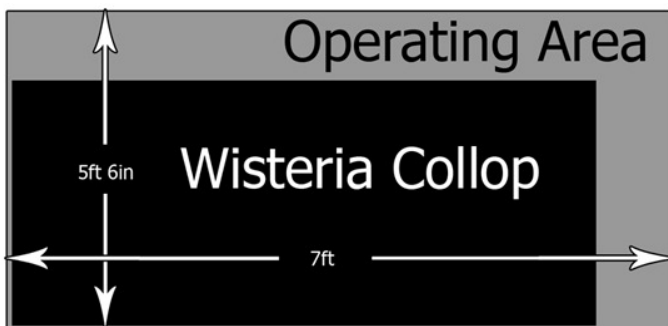

Information for Exhibition Managers – 2015/16

Wisteria Collop is a simple 4mm scale, OO9 layout. Just three Peco points, a left, a right and a Y. The buildings are kit bashed mainly from the Ratio and Wills range, plus a couple of adapted Skaledale cottages. Scenics are from Greenscenes, Woodland Scenics and JTT.

It is a simple roundy-roundy layout which includes a station and small goods yard, a few cottages and a pub. The road runs under the railway at one end and over the railway at the other.

Wisteria Collop is part of the fictitious south west English county of Somershire, my home OO/009 layout. The layout made its debut at NGSW in February 2015 and was very well received. It has taken bookings for 2015 & 2016 around the country, it has also been booked to feature in Model Rail magazine later this year.

Required exhibition space including operation area: 7ft x 5ft6in
Layout size 5ft7in x 2ft10in - 2 Operators – 30p/mile fuel expenses

I own Gas Cupboard Models in Trowbridge,
can I assume a small advertising display beside the layout will be acceptable?
